50ml bottles. Six different directions.

Compare the complete pictured references, then open the exact product page. Photos are not to scale; shown dimensions are on page 2.

KRN-0507

Tall faceted | 50ml

KRN-0508

Angular | 50ml

KRN-0511

Ribbed cylinder | 50ml

KRN-0515

Wide rectangular | 50ml

KRN-0516

Rounded square | 50ml

KRN-0520

Oval | 50ml

Keep the reference with the measurements.

All values below are the published measurements of the pictured configuration, in mm. Body height and overall height are separate measurements.

Reference	Pictured form	Width	Depth	Body height	Overall height
KRN-0507	Tall faceted	36	Not published	105	152
KRN-0508	Angular	50	39	88	127
KRN-0511	Ribbed cylinder	52	Not published	76	97
KRN-0515	Wide rectangular	75	31	57	88
KRN-0516	Rounded square	64	33	78	104
KRN-0520	Oval	66	27	81	101

Not published means no depth value is stated in the source reference. Do not derive missing measurements or cap height from the photograph or by subtraction.

Build one complete packaging brief

State the selected SKU(s), quantity and destination. Add the pump/collar/cap direction, decoration, box needs and target timing. Confirm neck/insert compatibility, final assembled dimensions and the approved sample for the exact project.

Published reference does not mean live stock. Availability, MOQ, price and lead time are confirmed at quotation. This sheet identifies glass references, not a universal 50ml specification.
