JD-028: choose a finish direction.

One ornamental medallion form. The three supplied photographs keep the model reference visible while you compare the pictured appearance.

JD-028 gunmetal

JD-028 gold

JD-028 silver-gray

Include in your enquiry

JD-028 + chosen finish photograph; bottle SKU or neck drawing; pump, collar and insert direction; quantity per finish and destination; box needs and target timing.

Colour names describe the photographed appearance. They do not specify a guaranteed RGB or Pantone match; final colour and surface approval follow the confirmed project sample. The photographs do not identify a neck standard, internal insert, weight or universal fit. Confirm the bottle neck, pump, collar, insert and fitted-box clearance for the intended assembly.

Current availability, MOQ, commercial terms and timing require confirmation for the exact project.
